

ENDS AND TRENDS WITH KIM AND KAREN

Kim's Tip: No Carve Pumpkin Designs

If you are looking for a cool way to design your Halloween pumpkin, all you need is a can of spray paint and lace stockings. You can create unique custom designs without having to carve it.

Supplies:

- Pumpkin
- Sheer, patterned lace stockings
- Masking tape
- Spray paint (colors of choice)

Instructions:

- Cut a section of the stockings big enough to cover the pumpkin you have. (Use hip section for larger pumpkins and leg section for smaller ones).
- Tie excess part at bottom and excess part at top around the stem of the pumpkin. Cover stem with masking tape to shield from spray paint.
- In a well-ventilated area, spray-paint top half of pumpkin (about 2 coats). Let dry and paint bottom half.
- Once dry, remove lace and you have your custom-designed pumpkin!
